

Global Planet Solutions

Your gateway to success

The ***Xtreme Intern*** adventure is based on Dr. John Holland's theory of career choice and interest preferences. It is the best known and most widely researched career theory and is used by many educators in the K-12 and postsecondary environments. Understanding Holland's theory helps students make good choices about education, clubs, internships, careers, and training programs. People are primarily six personality types: Realistic, Investigative, Artistic, Social, Enterprising, or Conventional.

Interests	Location	Xtreme Internships
